

SENIOR FIELD TRIP

By Sittiphan Jiyavorananda Grade 12-3

It was half past eight on the Saturday's evening when we all assembled at the hotel's conference room. The light was dimmed as we settled down and waited eagerly for the first act of the long awaited Senior Show. Suddenly, there were flashes of light appearing on the stage, and a popular dance single broke out. It was then that we started to make out the three figures now dancing and playing with the flashes of light in their hands, seemingly passing them on to each other and manipulating them in a flawless manner as if they were magical fireballs. The audience screamed out cheering, and that was the beginning of our Senior Show...

...Looking back, it was only yesterday, the 19th of September, when we took off from school and enjoyed the 4-hour ride to Kamchanaburi. It was truly a "ride": we laughed, chatted, shouted from one end of the bus to the other, slept, and probably annoyed the chaperones with our tuneful singing. The fun continued when we arrived at the River Kwai Resort just in time for lunch. So, we ate and later headed to our rooms to get ready for the afternoon activities. When the time came, we were split into groups: one to the muddy All-Terrain-Vehicle's drive, another to the dull rappelling session, and the last to the more exciting canoeing trip along the River Kwai. Some of us bumped into trees and others flipped the canoe twice. In the evening, it was time for the icebreaker games, not

that we had a lot of ice to break, but it was entertaining. The night passed, and we woke up for the much-needed breakfast for after that it was the Ninja Camp Walk Rally. Then, another lunch, more activities, rest, swimming and chilling out with friends who each of us hoped to get to know better before this final year ends. Finally, it was the Saturday evening's Senior Talent Show...

...After the spectacular first act, the talent show continued to be memorable. There were more dances, more laughs, guitar solo, cheering and singing. All of these were recorded. 20 years or so from now, we'll sure look back and laugh at what was our senior talent show. We'll look back and smile at all the time we spent together during senior trip. We will sure remember that this was our senior year.
